

MANIKANDAN V

Android Developer

8760409244 @ mannaikanna87@gmail.com

SUMMARY

I am an innovative Android App Developer with over 4 years of experience in designing, developing, and deploying high-performance mobile applications using Java, Kotlin, and Android SDK. My expertise encompasses UI/UX design, API integration, Firebase, and optimizing app performance. I am dedicated to clean architecture principles and agile development methodologies, continuously enhancing my skills to contribute to impactful mobile solutions

EXPERIENCE

Android App Developer

Idreamdevelopers

📅 04/2022 📍 Coimbatore

Development focused on delivering impactful mobile solutions

- Design, develop, and maintain high-quality Android applications aligned with user needs and business goals
- Collaborate with cross-functional teams including designers, backend developers, and testers to deliver seamless mobile experiences
- Translate UI/UX designs into functional and responsive app interfaces
- Integrate third-party APIs and services to enhance app functionality
- Write clean, efficient, and maintainable code following best practices and coding standards
- Debug and resolve technical issues, performance bottlenecks, and crashes
- Participate in code reviews, testing, and continuous improvement processes
- Stay updated with the latest Android development trends, tools, and technologies
- Ensure app compatibility across various Android versions and device types
- Contribute to app deployment, updates, and Play Store publishing processes

EDUCATION

Master Of Computer Application

Sastra University

📅 08/2019 - 05/2021 📍 Thanjavur

Bachelor of Computer Applications

Annai Vailankanni Arts & Science College

📅 08/2016 - 05/2019 📍 Thanjavur

SKILLS

Java Kotlin Android SDK

RESTful API Google Firebase

MVVM Google Maps API Flutter

PROJECTS

Restaurant POS System

Restaurant POS System

- Multi-application POS solution including Waiter, Counter, and Self-Kiosk apps with real-time order tracking, billing, payroll reports, kitchen printing, and RoomDB offline storage

Taxi Booking Application

Taxi Booking Application

- Driver & Customer apps with live location tracking, route navigation, ride booking workflow, trip status updates, and fare calculation logic using Google Maps API

Real-Time Admin-User Chat Application

Real-Time Admin-User Chat Application

- Scalable messaging system supporting text, image, video, and voice messages with admin broadcast functionality and local caching for performance optimization using WebSocket and RoomDB

Real Estate CRM

Real Estate CRM

- Lead management system with follow-up scheduling, lead transfer, property booking, and call history tracking integration

Matrimony Application

Matrimony Application

- User registration, profile management, preference-based matching, secure messaging, and authentication system
